

Special Presentation supported by NSF funded PREM program at NMHU

November 19, 2015 (Thursday) at ARMAS, 12pm

Prof. Tatiana Timofeeva (PREM Director, NMHU)

“Organic Materials for Curiosity and Life”

Partnership between NMHU and Ohio State University (OSU) in Research and Education in Materials (PREM) was funded by NSF for 5 years in amount of \$3,300,000. Most of this money should go to student's salaries, tuition, travel to research conferences and Summer students programs, mainly for underrepresented groups of students in STEM.

In presentation will be discussed:

- Topics of NMHU-OSU research
- Ways of students support
- Publications, presentations, conferences
- Summer and other OSU programs
- Prospective for students after their graduation
- Our graduates

Pizza will be provided
